DR. GLENN F. BOYCE
HOLMES COMMUNITY COLLEGE
RIDGELAND - GOODMAN - GRENADA

Welcome to Holmes Community College. Your presence has made this a very exciting time for our institution, as once again we have shattered all existing enrollment records. Whether you are returning to us or are new this semester, we want Holmes to be a place where your goals can be achieved and your dreams become reality. We strive to provide a college atmosphere where cutting edge knowledge is provided, faculty-student interaction is encouraged, and campus grounds, facilities and equipment are of a quality standard that speaks of the pride and respect we have for our students. We care deeply about our relationship and want you to graduate from Holmes knowing that your diploma prepared you to compete wherever your travels may take you.

Listed below are some interesting facts about our college. I have provided these facts to give you the larger picture of the institution you are attending and provide a glimpse of why those of us working here take great pride in wearing our college logo.

Did You Know . . .

. . . that Holmes Community College teaches in 7 different locations. (Ridgeland, Yazoo City, Goodman, Grenada, Kosciusko, Eupora and Winona)

. . . that over 7,500 different students attended Holmes in credit bearing studies last year.

. . .that our workforce division trained over 10,500 different individuals last year. These students spent over 454,000 hours in our classrooms.

. . .that all our programs combined serve over 20,000 different people throughout the course of a year.

. . . that our university transfer students match or exceed the GPA's of students who attend universities directly out of high school.

. . . that we offer 20 career/technical programs, most designed to offer the individual an opportunity to own their own business one day.

If I or anyone in my office can be of assistance, please do not hesitate to contact us by email at presidentsoffice@holmescc.edu .

Best wishes for a great year,

Dr. Glenn F. Boyce
