\$99
Includes Book

D.P. Pat McGowan Workforce Training Center at Holmes CC in Ridgeland

FOR MORE INFORMATION CALL 601-605-3431

Photoshop software can be purchased at a student discount through certain vendors

6-week, 12 hour class of **individualized, hands-on training** in Adobe Photoshop CS3 teaching how to take control of your photographs. Concentrating on the basic tools of this editing software while learning how to correct flaws using layers, sharpening, color correction, cropping and filters to enhance the final product, as well as preparing images for email, the web & more.

This class will also briefly review the **basics of digital photography** such as: how and when to use different exposures, shutter speeds, f-stops, flash, resolution settings: how to get the best and most from your digital camera & flash cards, & the best way to transfer & save your images to the computer.

This class is for those who own or have access to a digital camera. **It is recommended that you have a good basic working knowledge of your camera** when enrolling. The \$99 enrollment fee includes a book that is yours to keep. Students will work in a computer lab. **Class size is limited to 12. Call today to pre-register!**

THURSDAY NIGHTS 6-8P.M.
