

Announcing...GIS Class Added @ Holmes Workforce

Introduction to ArcGIS Online

Course Description

ArcGIS Online is a collaborative, cloud-based platform that allows members of an organization to use, create, and share maps, scenes, apps, and data, and access authoritative basemaps and ready-to-use apps.

This two day introductory course begins with an exploration of the ESRI ArcGIS Online interface. The functionality of both free and organizational (subscriber) accounts is explored. Participants will learn how to create a web map, work with and manage desktop content, create and configure an ArcGIS Online organizational account (free 30-day trial subscription), explore member roles for an organizational account, publish feature services, publish tiled map services, and create a web mapping application.

Prerequisites

Working knowledge of ArcGIS for Desktop (ArcMap). Laptops will be provided preloaded with software.

Class Dates & Time: May 20 & 21, from 8:30a-4:30pm

Location: Holmes Community College @ the McGowan Training Center, Ridgeland MS, Room 108

Instructor: Gunnar Olson

Cost: \$25.00
